## **DETAILED ACTION**

The following is a first action on the merits of application serial no. 10/549,669 filed on September 19, 2005.

### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Information Disclosure Statement***

The information disclosure statement filed on September 19, 2005 has been considered.

### ***Specification***

The abstract of the disclosure is objected to because in line 8, the second occurrence of "duty" should be deleted. Correction is required. See MPEP § 608.01(b).

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 1, it is unclear as to what the hydraulic control valve is "keeping the difference of the input and output of the torque converter to and what the amount of correction is derived from (vehicle parameters, etc.), this claim should be amended to clarify this.

Claim 1 recites the limitation "the amount of correction". There is insufficient antecedent basis for this limitation in the claim.

***Allowable Subject Matter***

Claims 4-6 are allowed.

Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
